

November 2017

C-CROSS

CATTLE COMPANY

BULL & FEMALE PRODUCTION SALE

SATURDAY, November 11, 2017
12:30 pm (EST)
At the Ranch • Biscoe, NC

HIGH QUALITY GELBIEH • ANGUS • BALANCER® CATTLE

Welcome to C-Cross Cattle Company

Welcome to our 2017 Annual Fall Bull and Female Sale! It is a pleasure to offer this fine set of bulls and females for your evaluation.

Powerful, Breed Leading Genetics make up this offering. We continue to try to breed top genetics to advance our breed influence. Many lots sell with GE-EPD's for better accuracy when making your selections. Gelbvieh influenced cattle continue to perform well in all aspects of the beef industry and Maternal traits are more important than ever to cattleman.

We admit we sometimes fail to succeed when we attempt to accomplish things in our own strength. We realize that we are helpless without God's Blessing in our lives and credit Him for our accomplishments.

Make your purchase with confidence...

Sincerely,

Duane and Wendy Strider

GELBIEH.....
The Mother Breed of Beef

C-CROSS CATTLE.....
Your source of Performance, Carcass and Eye Appeal

AIR TRANSPORTATION

Fly to either Charlotte, NC (70 miles to sale site), Greensboro, NC (50 miles to sale site) or Raleigh, NC (70 miles to sale site).

HEALTH

Health papers will be provided in order to allow shipment anywhere in the continental US. All bulls selling have passed a complete breeding soundness exam and are guaranteed breeders.

HERD VETERINARIAN

Dr. Brent Scarlett, DVM - Asheboro, NC
336-629-5400

TELEPHONE BIDS

Any telephone bids may be submitted to William McIntosh, Duane Strider or Bobby Myrick at the above listed numbers.

INTERNET BIDDING

If you are unable to attend the sale, Internet Bidding is available via the LiveAuctionsTV website. Buyers must create an account and request a buyer number prior to the sale. Go to www.LiveAuctions.tv to register or call Brad Fahrmeier for details: 816-392-9241

TRUCKING

Buyers are responsible for shipping cost and scheduling trucking. C-Cross Cattle will be glad to provide you with a list of reliable truckers for trucking nationwide, if needed.

REGISTRATION PAPERS

Registration papers are in order on all registered Gelbvieh, Balancer® and Angus cattle selling. Registration papers will be transferred to new owner at seller's expense. Expect the registrations to arrive to you in 45-60 days.

LIABILITY

All persons attending the sale do so at their own risk. C-Cross Cattle Co. assumes no liability for accidents, theft or damage occurring at the sale facility.

SALE ORDER AND SUPPLEMENTAL INFORMATION

Cattle will sell in catalog order. Supplement sheet and announcements from the block take precedence over the sale book. All cattle will be penned in the sale lots beside the sale barn starting on **Friday, November 10, at 2:00 pm** for viewing.

TERMS AND CONDITIONS

Terms are cash or check, and settlement must be made sale day before the cattle leave the sale facility. All cattle sell under the terms and conditions suggested by the American Gelbvieh Association. A copy of these can be obtained from the AGA or C-Cross Cattle Company.

SALE PROCEDURES & SALE BOOK INFORMATION

C-CROSS CATTLE CO VIDEO AUCTION PROCEDURE:

All females and bulls selling will be penned beside the sale barn for viewing on Friday, November 10 and Saturday, November 11. The cattle will be sold with viewing of the animal selling on video screens in the sale barn. No animal will come into the ring. Please arrive early for viewing of all sale animals.

FEMALES SELLING:

Buyer's Choice lots selling. Buyer has choice of lots such stated in sale book. When sold, buyer picks choice of animals sold, C-Cross Cattle Company keeps the other. Buyers in the seats sale day must make choice at time of sale before starting sale of the next lots. Online purchases through www.Liveauctions.tv will be contacted immediately following the auction and you must let us know your choice at that time.

BULLS SELLING:

All bulls sell individually.

ABOUT THE BULLS

C-CROSS CATTLE COMPANY BULL GUARANTEE:

All bulls have been tested and passed a Breeding Soundness Examination. Bulls will be guaranteed for their first breeding season defined as a 90 day breeding season post turn in or a maximum of four months after date of purchase. Guaranteed in full unless negligence of the buyer. C-Cross Cattle Company will work to furnish you another bull of equal value or refund purchase price of the original bull less salvage value.

BULL DEVELOPMENT:

All bulls were developed on a wet ration of soy hulls, corn gluten, corn silage and a mineral vitamin pack. Bulls had access to grass and/or hay and were held in large pastures for adequate exercise. Bulls have been developed, not fattened. We add pounds slowly to minimize any problems with soundness. We don't creep feed calves at the side of dams. We believe that our environment should be the same as that of most commercial producers. This allows us to see what the cow, calf and grass can achieve.

HEIFER BULLS:

Look for this symbol  to help in selecting a bull to use on first calf heifers. If you see this symbol beside a lot number, you will know that C-Cross believes it is a "Heifer Bull."

PERFORMANCE INFORMATION:

BW = Actual Birth Weight

AYW = Adjusted Yearling Weight

AWW = Adjusted Weaning Weight

SC = Actual Scrotal Circumference

C-CROSS CATTLE COMPANY WILL RETAIN 50% SEMEN INTEREST IN ALL BULLS SELLING UNLESS OTHER ARRANGEMENTS ARE MADE PRIOR TO THE FALL OF THE GAVEL.

ABOUT THE FEMALES

FEMALE PREGNANCY AND CALF INFORMATION:

All females selling as bred have the breeding information and approximate calving time listed in the footnote. All bred females have been pregnancy checked to confirm pregnant and approximate calving dates will be listed on the supplement sheet sale day.

EPDs (Expected Progeny Differences):

All EPDs, for bulls and females, are current as provided by the AGA at the time of catalog printing. EPDs are subject to change before the transfer of registration and/or the buyers receipt of the transferred registration papers due to updated data recorded at the AGA. Actual EPDs are shown for each lot as well as the percentage ranking for each trait.

SALE BOOK INFORMATION AND DATA

GENOMIC ENHANCED EPDs (GE EPDS):

C-Cross Cattle Company has DNA tested GE EPDs for many of the bulls and some of the females selling to provide buyers with the most up to date information as possible for the sale offering. All animals selling with GE EPDs is denoted with  on each lot that has been DNA tested.

ADVANTAGES TO THE BUYER WITH GE EPDS:

- Make better bull buying decisions
- DNA testing is not affected by environment
- Greater confidence in your seedstock supplier
- Select replacement heifers and potential donor dams with more confidence
- Get EPDs with ACC values equal to or greater than a lifetime of progeny
- Find maternally focused bulls that will produce superior replacement females
- Select superior young sires that will accelerate genetic improvement
- Identify sires to use for specific corrective mating situations
- More accurately select sires that excel in feedlot and carcass traits, especially marbling
- Choose bulls that can be confidently used on replacement heifers
- Get more accurate EPDs on bulls and females 2 to 4 years sooner

PROGENY EQUIVALENTS FOR GELBVIEWH GENETIC PROFILES WITH GE EPDS	
Trait	GGP Adds
CED	5 progeny
BW	3 progeny
WW	2 progeny
YW	3 progeny
MK	5 progeny
CEM	2 progeny
YG	7 progeny
CW	2 progeny
REA	1 progeny
MB	20 progeny

EPD DESCRIPTIONS IN THE SALE BOOK:

CED: Calving ease direct, percent of unassisted births of a bull's calves when he is used on heifers. A higher number is favorable, meaning better calving ease. This EPD can be vital to a rancher looking to decrease the amount of calves pulled in his herd.

BW: Birth weight, predicts the difference, in pounds, for birth weight of the calf.

WW: Weaning weight, predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

YW: Yearling weight, predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

MK: Milk, the genetic ability of a sire's daughters to produce milk expressed in pounds of weaning weight.

TM: Total maternal, an index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. As an index, this value is not reported with an accompanying accuracy. A greater TM value means a mother that returns comparatively higher weaning weights on her calves.

CEM: Calving ease maternal, represented as percent of unassisted births in a sire's first-calving daughters. A higher number represents more favorable calving ease. This EPD is important to a rancher's bottom line because it predicts which animals produce daughters with a genetic pre-disposition to calve unassisted as heifers.

YG: Yield grade, differences in yield grade score, which is a predictor of percent retail product. Smaller values suggest that progeny will have a better lean to fat ratio.

CW: Carcass weight, differences in pounds of hot carcass weight, adjusted to an industry standard age endpoint.

REA: Ribeye area, differences in ribeye area in inches between the 12th and 13th rib. Greater ribeye areas are preferable.

MB: Marbling, predicts the differences in the degree of marbling within the ribeye as expressed in marbling score units. Greater marbling numbers are preferable and are an indicator of higher carcass quality grades.

FPI: Feeder profit index, an economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.

CCRO CAROLINA TUXEDO 6028D ET - SELLS AS LOT 1

What a breeding piece! A CCRO Carolina Leverage 3214A out of one of the most prolific cows in the breed. DLW Ms Matron 802U is certainly one of the top producing Gelbvieh cows to come along. Her Bennett U271 sons took the breed by storm. Her son, DLW Alumni 7513A, son was crowned Breeders Choice Gelbvieh Bull Futurity Champion in 2014. 5 flush brothers sold to seedstock producers. She once again produced the top selling bull, DLW TPG Jackpot 7551B, in the Warner Beef Genetics Sale in 2016. This Leverage ET calf checks all the boxes. CCRO Carolina Tuxedo 6028D ET ranks in the top 1% for WW, YW, MK and TM. Top EPD's from breed leading genetics.

What can I say about the W607 cow? Everyone who sees her says 'WOW'. So powerful, deep and thick and fertile. Pay attention to these two Leverage calves offered. These 63% bulls are easy on the eyes and certainly qualify for use on heifers without giving an inch in performance and carcass. The sky is the limit on what these bulls can offer. Both are excellent Maternal growth Machines! Only problem is which one to choose.

One of the bulls on the short list to certainly add frame to your calves. We purchased the Black Crown 626A bull from Little Windy Hill Farm right after the 2015 NWSS Gelbvieh Bull Futurity where he was a Runner-up entry. You will like this Balancer bull when you see him in person and no less when you see he is in the top 10% for weaning weight and yearling weight. He will make you \$ on a set of cows.

CCRO CAROLINA 3326A ET
DAM OF LOT 42

I feel this young Herd Sire could be a breeding piece for your program. His dam, CCRO 3326A ET, is a full sister to the CCRO 1230Y Exclusive bull. She has recorded 2 AI calves, both of them with 265 and 266 day gestational length, respectively. 6202D had a 64# startup, however, his GE-EPDs put him in the top 1% of the breed for yearling weight and top 2% for weaning weight. He sits in the top 1% for CW, FPI and EPI as well. You will find him in the top 3% for TM and PG30. I believe he can be proved to work on heifers, and with his short GL combined with carcass & growth EPDs, he could be a valuable asset in the Purebred arena. The fusion of the Leverage and Exclusive cow families should be excellent!

Here are 3 Exclusive calves to pick from. All 3 have excellent weaning weight and yearling weight EPDs. Use these bulls on cows to add pounds, depth and thickness to your next calf crop. All three dams are top producers in our herd. CCRO 9760W is a Donor in our program and produced the high selling heifer calf, CCRO 3339A, in 2015's Production Sale with high bid going to Warner Breed Genetics and Cedar Top Gelbvieh. CCRO 2331Z, dam of 6208D, produced the high selling bull in our 2015 Production Sale, CCRO 4209B, a Black Impact son, selling to C.H. Morris & Sons in Appomattox, Virginia. CCRO 0160X, dam of 6210D, has 3 daughters working in our herd.
