

NOVEMBER 2019

BULL & FEMALE PRODUCTION SALE

NOVEMBER 9, 2019 • SALE BEGINS AT 1:00 PM (EST)
————— AT THE RANCH IN BISCOE, NC —————

HIGH QUALITY GELBVIEH • ANGUS • BALANCER® CATTLE

Season's Greetings from C-Cross Cattle Company!

And Welcome to our 2019 Fall Sale!

We have assembled a nice set of cattle for your appraisal. We have brought up a new set of Donor cattle that we call our "Next Generation" females. These ladies are producing at the top of our herd. We're offering embryos and flushes out of some of these females that we trust are sure to impact the breed. Several bred and open heifers from the heart of our program are also in the offering.

The bulls are a stout, rugged set with EPDs and Pedigrees that can work across the breed. You'll find several out cross bulls to most herds that I'm sure are destined to find their way to the top of the gene pool.

We appreciate your continued support and are truly thankful for the relationships we have built throughout this industry.

We pray God's blessing during this coming holiday season for you and your family!

Sincerely,
Duane and Wendy Strider

C-Cross CattleYour source for Performance, Carcass and Eye Appeal

SCHEDULE OF EVENTS

Friday, November 8

Cattle available for viewing 2:00 PM until dark

Saturday, November 9

Cattle available for viewing 8:00 AM

11:30 AM

Lunch Served

1:00 PM

Production Sale begins

Load out begins at conclusion of sale

SPECIAL GUEST

Will Fiske, AGA Breed Growth Specialist
Will is involved with data analysis projects, assists the AGA marketing team's efforts to further grow demand for Gelbvieh and Balancer®-influenced cattle, and facilitates, and increases the use of AGA's commercial cow herd database, Smart Select Service.

ACCOMMODATIONS

Days Inn - Biscoe, NC	910-428-2525
Holiday Inn - Rockingham, NC	910-895-0099
Comfort Inn - Asheboro, NC	336-626-4414
Comfort Inn - Pinehurst, NC	910-215-5500
Quality Inn - Albemarle, NC	704-983-6990

AIR TRANSPORTATION

Fly to either Charlotte, NC (70 miles to sale site), Greensboro, NC (50 miles to sale site) or Raleigh, NC (70 miles to sale site).

HEALTH

Health papers will be provided in order to allow shipment anywhere in the continental US. All bulls selling have passed a complete breeding soundness exam and are guaranteed breeders.

HERD VETERINARIAN

Dr. Brent Scarlett, DVM - Asheboro, NC
336-629-5400

TELEPHONE BIDS

Any telephone bids may be submitted to Todd Barlow or Duane Strider at the above listed numbers.

INTERNET BIDDING

If you are unable to attend the sale, Internet Bidding is available via the LiveAuctionsTV website. Buyers must create an account and request a buyer number prior to the sale.

Go to www.LiveAuctions.tv to register or call Brad Fahrmeier for details: 816-392-9241

TRUCKING

Buyers are responsible for shipping cost and scheduling trucking. C-Cross Cattle will be glad to provide you with a list of reliable truckers for trucking nationwide, if needed.

REGISTRATION PAPERS

Registration papers are in order on all registered Gelbvieh, Balancer® and Angus cattle selling. Registration papers will be transferred to new owner at seller's expense. Expect the registrations to arrive to you in 45-60 days.

LIABILITY

All persons attending the sale do so at their own risk. C-Cross Cattle Co. assumes no liability for accidents, theft or damage occurring at the sale facility.

SALE ORDER AND SUPPLEMENTAL INFORMATION

Sale order will be available sale date. Supplement sheet and announcements from the block take precedence over the sale book. All cattle will be penned in the sale lots beside the sale barn starting on Friday, November 8, at 2:00 pm for viewing.

TERMS AND CONDITIONS

Terms are cash or check, and settlement must be made sale day before the cattle leave the sale facility. All cattle sell under the terms and conditions suggested by the American Gelbvieh Association. A copy of these can be obtained from the AGA or C-Cross Cattle Company.

SALE PROCEDURES & SALE BOOK INFORMATION

C-CROSS CATTLE CO VIDEO AUCTION PROCEDURE:

All females and bulls selling will be penned beside the sale barn for viewing on Friday, November 8 and Saturday, November 9. The cattle will be sold with viewing of the animal selling on video screens in the sale barn. No animal will come into the ring. Please arrive early for viewing of all sale animals.

FEMALES SELLING:

All female lots sell individually unless stated otherwise from the block.

BULLS SELLING:

All bull lots sell individually.

ABOUT THE BULLS

C-CROSS CATTLE COMPANY BULL GUARANTEE:

All bulls have been tested and passed a Breeding Soundness Examination. Bulls will be guaranteed for their first breeding season defined as a 90 day breeding season post turn in or a maximum of four months after date of purchase. Guaranteed in full unless negligence of the buyer. C-Cross Cattle Company will work to furnish you another bull of equal value or refund purchase price of the original bull less salvage value.

C-CROSS BULL BOARDING AND DEVELOPMENT:

Any bull sold in this sale can be left at a cost of \$3.50 per day. Buyer must buy insurance or assume risk. All bulls must be picked up before May 1, 2020 unless other arrangements are made.

BULL DEVELOPMENT:

All bulls were developed on a wet ration of soy hulls, corn gluten, corn silage and a mineral vitamin pack. Bulls had access to grass and/or hay and were held in large pastures for adequate exercise. Bulls have been developed, not fattened. We add pounds slowly to minimize any problems with soundness. We don't creep feed calves at the side of dams. We believe that our environment should be the same as that of most commercial producers. This allows us to see what the cow, calf and grass can achieve.

HEIFER BULLS:

Look for this symbol  to help in selecting a bull to use on first calf heifers. If you see this symbol beside a lot number, you will know that C-Cross believes it is a "Heifer Bull."

PERFORMANCE INFORMATION:

BW = Actual Birth Weight

AYW = Adjusted Yearling Weight

AWW = Adjusted Weaning Weight

SC = Actual Scrotal Circumference

C-CROSS CATTLE COMPANY WILL RETAIN 50% SEMEN INTEREST IN ALL BULLS SELLING UNLESS OTHER ARRANGEMENTS ARE MADE PRIOR TO THE FALL OF THE GAVEL.

ABOUT THE FEMALES

FEMALE PREGNANCY AND CALF INFORMATION:

All females selling as bred have been confirmed bred by a licensed veterinarian.

EPDs (Expected Progeny Differences):

All EPDs, for bulls and females, are current as provided by the American Gelbvieh Association at the time of catalog printing. EPDs are subject to change before the transfer of registration and/or the buyers receipt of the transferred registration papers due to updated data recorded at the AGA.

SALE BOOK INFORMATION AND DATA

How the New Genetic Evaluation Impacts Genetic Selection

The AGA is a part of International Genetic Solutions (IGS), which is a collaboration between other North American beef breed associations. IGS invested in the new BOLT software, which brings with it the single-step genetic evaluation, a new, more streamlined method for incorporating genomic results into expected progeny differences (EPDs).

This partnership benefits the commercial beef industry by providing EPDs backed by millions of pedigree, performance, and genomic records, which are directly comparable across the partner breeds. Hands down, BOLT technology provides the best and most accurate method for genetic prediction. Below is a sampling of improvements brought on by BOLT:

Progeny equivalent values in the table below describe the number of progeny with reported data for each trait that would be needed to match the amount accuracy provided by a genomic test. For example, the progeny equivalent for calving ease direct (CED) for Gelbvieh and Balancer® registered animals is 15, which means that the inclusion of a genomic test is the equivalent to having calved 15 heifers bred to a particular bull.

ADVANTAGES TO THE BUYER WITH GE EPDs:

- Make better bull buying decisions
- DNA testing is not affected by environment
- Greater confidence in your seedstock supplier
- Select replacement heifers and potential donor dams with more confidence
- Get EPDs with ACC values equal to or greater than a lifetime of progeny
- Find maternally focused bulls that will produce superior replacement females
- Select superior young sires that will accelerate genetic improvement
- More accurately select sires that excel in feedlot and carcass traits, especially marbling

EPD DESCRIPTIONS IN THE SALE BOOK:

CED: Calving ease direct, percent of unassisted births of a bull's calves when he is used on heifers. A higher number is favorable, meaning better calving ease. This EPD can be vital to a rancher looking to decrease the amount of calves pulled in his herd.

BW: Birth weight, predicts the difference, in pounds, for birth weight of the calf.

WW: Weaning weight, predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

YW: Yearling weight, predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

MK: Milk, the genetic ability of a sire's daughters to produce milk expressed in pounds of weaning weight.

TM: Total maternal, an index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. As an index, this value is not reported with an accompanying accuracy. A greater TM value means a mother that returns comparatively higher weaning weights on her calves.

CEM: Calving ease maternal, represented as percent of unassisted births in a sire's first-calving daughters. A higher number represents more favorable calving ease. This EPD is important to a rancher's bottom line because it predicts which animals produce daughters with a genetic pre-disposition to calve unassisted as heifers.

YG: Yield grade, differences in yield grade score, which is a predictor of percent retail product. Smaller values suggest that progeny will have a better lean to fat ratio.

CW: Carcass weight, differences in pounds of hot carcass weight, adjusted to an industry standard age endpoint.

REA: Ribeye area, differences in ribeye area in inches between the 12th and 13th rib. Greater ribeye areas are preferable.

MB: Marbling, predicts the differences in the degree of marbling within the ribeye as expressed in marbling score units. Greater marbling numbers are preferable and are an indicator of higher carcass quality grades.

FPI: Feeder profit index, an economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.

\$COW: Represents the genetic value in dollars of profit of an animal when retained as a replacement female relative to other animals in the herd. A higher number represents more profitable genetics for maternal productivity. \$Cow will serve producers in selecting bulls that will sire daughters with stayability and reproductive efficiency as well as other traits that lead to profitability in a production system, such as milk, calving ease, moderate mature weight and the ability of calves to gain. A female's genetics also influence the performance of her calves in the feedlot and at slaughter, so traits such as feed efficiency and carcass value are also included in \$Cow.

We are pleased with the results of the Jackpot 7551B mating on the 0363X Miss Playmate cow. The Royal Lineage in this pedigree should equate to an elite breeding piece. This bull is big scrotaled, sound footed and excellent structured, a pleasure to watch him on the move. His GEPDs rank him in the top 15% or better for WW and YW. Top 5% or better for REA, MB and CW. Note the 78# actual BW and use your judgment on potential results. His dam just recorded a 70# Final Frontier calf for 2019. His birth weight ratio is 94.6. Excellent Maternal prospect from proven genetics and an outcross PB88% for many herds. HomoBlack and HomoPolled in a moderate framed package. 43.0 cm Scrotal, the highest among the GV Balancer bulls in the offering.

90	70	30	40	70	50	80	10	30	4	60	25	50

The first Tuxedo calf we produced meets our expectations. This 63% Balancer bull is a very stylish specimen indeed – very correct and moves like a cat. HomoBlack and HomoPolled. HIS GEPDs rank him above average for WW and YW. Intake and Carcass values are impressive ranking in the top 4% in REA, and top 10% in YG. Top 25% in \$Cow.

Notice the 9760W Donor dam photo and the excellent phenotype. We are still flushing her and her ET sister 9759W at age 10. Excellent Maternal cow families on both sides of pedigree!

LWHF INTIMIDATOR 617Z
Sire of Lot 29

We don't get to tell everybody on Sale Day, but C-Cross Cattle Company wants to **thank you** for attending our sale and for all the previous years of support.

NOTES:

C-CROSS SS t GENERATION Females

We are excited to introduce a new line-up of Elite Female Genetics as well as Progeny from our time tested cow families in this year's offering.

I believe you will appreciate the Performance Potential in these Females without sacrificing Phenotype, Teat & Udder, and Maternal.

Our Goal has always been to produce Breeding Cattle that perform all the way to the consumer.

Thanks for your interest and call anytime!

We enjoy talking about how our cattle can fit your needs!

C-CROSS CATTLE CO. EMBRYO PACKAGES

CCRO CAROLINA 3310A X JKGF FINAL FRONTIER C95

CCRO CCROSS CAROLINA 3310A Dam of Lot 30 mating

BUYER RECEIVES 4 FROZEN EMBRYOS WITH A GUARANTEE OF 2 PREGNANCIES IF IMPLANTED BY A CERTIFIED EMBRYOLOGIST WITH REPLACEMENT GUARANTEE OF 1 EMBRYO PER PREGNANCY NOT CONCEIVED. BUYER PAYS ALL SHIPPING COST.

The 3310A cow has earned her way to the C-CROSS Donor pen in the past year after selling Herd bulls into Montana and Mississippi. The mating to Final Frontier C95 should produce excellent Purebred 94% genetics! This is the first opportunity to get in on the ground floor of this great female. Progeny will be HomoBlack and HomoPolled by birthright.

With 2 daughters in the Replacement pen, we are bringing this 617Z Intimidator daughter to the Donor pen this fall. She stems from the 5124R cow, the Dam of 7309T that produced such a string of Breed leading genetics! Excellent phenotype and teat & udder in this Maternal Package. Her disposition is as good as it gets. Flushing her for the first time in December! Don't miss this opportunity!

CCRO CAROLINA ON TIME 2365Z **Dam of Lot 32**

TERMS AND CONDITIONS OF CCRO 5171C FLUSH:

Buyer gets 6 transferable embryos with a guarantee of 3 pregnancies to the sire of your choice. All flush and freeze cost are provided by C-Cross Cattle Co. and the buyer pays for shipment cost to get embryos to buyer's location. Buyer provides semen to C-Cross Cattle for the flush. If C-Cross Cattle owns the sire you wish to use, C-Cross will provide the semen for the flush.

All embryos must be placed by a Certified Embryologist for this guarantee. The guarantee is 1 replacement embryo per unfulfilled pregnancy. When an embryo is replaced, the guarantee is fulfilled.
